REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Member of
NewOak Capital Markets LLC:

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of NewOak Capital Markets LLC (the "Company"), as of June 30, 2020, and the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of June 30, 2020, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

WithumSmith+Brown, PC

We have served as the Company's auditor since 2016.

NEWOAK CAPITAL MARKETS LLC

NOTES TO FINANCIAL STATEMENT

1. Nature of business and summary of significant accounting policies

Nature of Business

NewOak Capital Markets LLC (the "Company") is a limited liability company organized under the laws of the state of Delaware on December 30, 1999, wholly-owned by NewOak Securities Holding LLC. NewOak Securities Holding LLC is owned by NewOak Capital Holdings, L.P. (the "Parent"). The Company is a registered broker-dealer with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). The Company engages in securities brokerage and execution services. The Company may also engage in principal transactions as well as private placements. On September 24, 2019, the Company received approval from its Designated Examining Authority to change its year end from December 31st to June 30th.

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Liquidity

The Company does not have sufficient liquidity to meet its anticipated obligations over the next year from the issuance of these financial statements. In connection with the Company's assessment of going concern considerations in accordance with FASB's Accounting Standards Update ("ASU") 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," management has determined that the Company has access to funds from the Parent that are sufficient to fund the working capital needs of the Company through one year from the issuance of these financial statements.

Revenue Recognition

ASC Topic 606 requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation. In determining the transaction price, an entity may include variable consideration only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved. The Company applied the modified retrospective method of adoption which resulted in no adjustment as of January 1, 2018. The new revenue recognition guidance does not apply to revenue associated with financial instruments, interest income and expense, leasing and insurance contracts.

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer. Significant judgement is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate

NEWOAK CAPITAL MARKETS LLC

NOTES TO FINANCIAL STATEMENT

1. Nature of business and summary of significant accounting policies (continued)

Revenue Recognition (continued)

measure of the Company's progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

Disaggregation of Revenue

All of the Company's revenues for the period January 1, 2019 through June 30, 2020 originated from private placement income.

Receivables and Contract Balances

Receivables arise when the Company has an unconditional right to receive payment under a contract with a customer and are derecognized when the cash is received. There were receivable balances of \$120,000, as of June 30, 2020, and zero as of January 1, 2019.

Contract assets arise when the revenue associated with the contract is recognized prior to the Company's unconditional right to receive payment under a contract with a customer (i.e., unbilled receivable) and are derecognized when either it becomes a receivable or the cash is received. Contract assets are reported in the statement of financial condition. As of January 1, 2019 and as of June 30, 2020, contract asset balances were \$0.

Contract liabilities arise when customers remit contractual cash payments in advance of the Company satisfying its performance obligations under the contract and are derecognized when the revenue associated with the contract is recognized when the performance obligation is satisfied. As of January 1, 2019 and as of June 30, 2020, there were no contract liabilities.

Income Taxes

No provision for income taxes has been recorded in the accompanying financial statements.

The Company is a single member limited liability company and a disregarded entity for tax purposes. The Company is ultimately owned by a partnership, NewOak Capital Holdings, L.P., whose income earned is passed through to the underlying partners and therefore is taxed as a partnership. Therefore, the Company is a single member limited liability company, which is taxed as a partnership. Accordingly, the taxable income or loss of the Company is included in the New York City Unincorporated Business Tax ("UBT") tax return of the Parent.

The Company follows an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

NEWOAK CAPITAL MARKETS LLC

NOTES TO FINANCIAL STATEMENT

1. Nature of business and summary of significant accounting policies (continued)

Income Taxes (continued)

At June 30, 2020, management has determined that the Company had no uncertain tax positions that would require financial statement recognition. This determination will always be subject to ongoing reevaluation as facts and circumstances may require. The Company remains subject to US federal, New York State and New York City income tax audits for all periods subsequent to 2016.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the amounts disclosed in the financial statements. Actual results could differ from those estimates.

2. Net capital requirement

The Company, as a member of FINRA, is subject to the SEC Uniform Net Capital Rule 15c3-1. This Rule requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 and that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At June 30, 2020, the Company's net capital was \$142,750, which was \$42,750 in excess of its minimum requirement of \$100,000.

3. Off-balance sheet risk

Pursuant to a clearance agreement, the Company introduces all of its securities transactions to a clearing broker on a fully-disclosed basis. All of the customers' money balances and long and short security positions are carried on the books of the clearing broker. In accordance with the clearance agreement, the Company has agreed to indemnify the clearing broker for losses, if any, which the clearing broker may sustain from carrying securities transactions introduced by the Company. In accordance with industry practice and regulatory requirements, the Company and the clearing broker monitor collateral on the customers' accounts.

In addition, the receivable from the clearing broker is pursuant to the aforementioned clearance agreement and include a clearing deposit of \$50,000 held at the clearing broker.

4. Commitments and contingencies

Litigation

The Company is subject to various legal proceedings and claims that arise in the ordinary course of business. Management does not believe there are any open matters that will materially impact the statement of financial condition.

NEWOAK CAPITAL MARKETS LLC

NOTES TO FINANCIAL STATEMENT

5. Concentrations of credit risk

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other brokers is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss. The Company did not engage in any principal transactions for the period from January 1, 2019 through June 30, 2020.

The Company maintains principally all cash balances in one financial institution which, at times, may exceed the amount insured by the Federal Deposit Insurance Corporation up to \$250,000 per institution. The exposure to the Company is solely dependent upon daily bank balances and the strength of the financial institution. The Company has not incurred any losses on this account. At June 30, 2020, the amount in excess of insured limits was \$0.

During the period from January 1, 2019 through June 30, 2020 100% of the Company's commission revenue was from one customer.

6. Exemption from Rule 15c3-3

The Company is exempt from SEC Rule 15c3-3 pursuant to the exemptive provisions of paragraph (k)(2)(ii) as it clears all customer transactions through another broker-dealer on a fully disclosed basis.

7. Related party transactions

For the period from January 1, 2019 through June 30, 2020, the Parent forgave \$38,550 of debt that was owed to it by the Company, which was treated as capital contributions to the Company.

8. Fidelity Bond

The Company operated without an active Fidelity Bond for the period February 16, 2019 through June 23, 2020. The Company notified FINRA of this deficiency and as of the date of this report has an active Fidelity Bond.

9. Subsequent Events

The Company has evaluated subsequent events through the date which the financial statements were available to be issued. No events were noted which would require recognition or disclosure in the footnotes to the financial statements.

10. Covid-19

Management is currently evaluating the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/its cash flows, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.
